## Professional Summary

---

Final-year BSc Computer Science student at Eötvös Loránd University with industry experience as a Cloud Identity & Access Management Engineering Intern at Morgan Stanley. Experienced in Microsoft Azure, Microsoft Graph API, PowerShell automation, and enterprise identity systems. Passionate about Artificial Intelligence, cloud technologies, and building scalable software, with long-term goals of pursuing AI research and developing intelligent systems that solve real-world problems.

## Education

---

**Eötvös Loránd University (ELTE)**  
Bachelor of Science in Computer Science

Budapest, Hungary  
2023–Present

## Experience

---

**Morgan Stanley**

Budapest, Hungary

**Technology Intern – Cloud IAM Engineer**

Sep 2025–Present

- Developed PowerShell automation to streamline Microsoft Entra ID (Azure AD) B2B group synchronization.
- Improved reliability and scalability of enterprise identity workflows while reducing manual operational effort.
- Worked with Microsoft Graph API, Azure, IAM, RBAC, and enterprise cloud infrastructure.
- Collaborated with cloud security and identity engineering teams on secure access governance.

**Technology Intern – Frontend Developer**

Jan 2025–Aug 2025

- Built enterprise Single Page Applications using Angular, TypeScript, HTML, CSS, and JavaScript.
- Developed reusable UI components and participated in Agile development, sprint planning, and code reviews.

**Eötvös Loránd University**

**Demonstrator – Operating Systems**

Feb 2026–Jul 2026

- Conducted practical sessions on Bash and PowerShell scripting.
- Mentored students in command-line tools, debugging, and operating systems concepts.

**Meritorious Education Network**

**Junior IT Assistant**

2021–2022

- Supported backend systems, IT operations, and digital platform maintenance.

## Technical Skills

---

**Programming:** Python, PowerShell, Java, C, C#

**Artificial Intelligence:** Machine Learning, Generative AI, Prompt Engineering

**Cloud & Security:** Microsoft Azure, Microsoft Entra ID (Azure AD), Identity & Access Management (IAM), Microsoft Graph API, RBAC, Access Governance

**Web:** HTML, CSS, JavaScript, TypeScript, Angular, Laravel

**Tools:** Git, GitHub, Bitbucket, Docker, Visual Studio Code

**Core Concepts:** Data Structures, Algorithms, Object-Oriented Programming, REST APIs, Automation, Cloud Security, Enterprise Systems

## Leadership

---

- International Student Ambassador – ELTE
- International Student Advisory Committee Member – ELTE
- Senior Student Mentor – ELTE
- HOOK Mentor – ELTE

## Projects

---

### **B2B Identity Automation Tool**

- Developed an enterprise automation solution using PowerShell and Microsoft Graph API to synchronize Azure AD B2B groups and improve operational efficiency.

### **AI Support Assistant (In Progress)**

- Contributing to the backend design of an AI-powered enterprise support assistant exploring modern Generative AI concepts.

## Certifications

---

Google Python • Kali Linux • Network Security • Encryption • Firewall Fundamentals • Cyber Forensics • Learning PowerShell
