Education

Eötvös Loránd University (ELTE), Budapest, Hungary

BSc in Computer Science

2023 – Present

Experience

Technology Intern – Cloud IAM Engineer

Sep 2025 – Present

Morgan Stanley, Budapest

Working on Identity and Access Management solutions within a hybrid enterprise cloud environment, with a focus on automation, reliability, and secure access governance. Developed an automated PowerShell solution to streamline exception handling in Azure Active Directory B2B group synchronization, significantly reducing manual operational effort while improving monitoring and reliability of identity workflows. Collaborating with cloud and security teams to support scalable IAM operations, including identity support across multiple tenants and role-based access control.

Technology Intern – Frontend Developer

Jan 2025 – Aug 2025

Morgan Stanley, Budapest

Contributed to the development of enterprise-grade client-facing applications by building and maintaining Single Page Applications using Angular and TypeScript. Implemented reusable UI components with HTML, CSS, and JavaScript, and worked closely with cross-functional teams in an Agile environment, participating in sprint planning, code reviews, and frontend performance optimization.

Demonstrator – Operating Systems

Feb 2026 – Jul 2026

Eötvös Loránd University (ELTE)

Conducted practical sessions focused on Bash and PowerShell scripting, assisting students with command-line tools, scripting concepts, and troubleshooting.

Junior IT Assistant (Intern)

2021 – 2022

Meritorious Education Network

Supported IT operations including system maintenance, backend-related tasks, and digital platform management, ensuring reliability of academic systems and accurate record keeping.

Skills

Programming Languages: Python, PowerShell, Java, C, C#

Web Technologies: HTML, CSS, JavaScript, TypeScript, Angular, Laravel

Cloud & Identity: Azure Active Directory (Azure AD / Microsoft Entra ID), Identity and Access Management (IAM), B2B Identity, Access Governance, Microsoft Graph API

Tools: Git, Bitbucket, GitHub

Core Concepts: Object-Oriented Programming, Data Structures, Automation, Secure Enterprise Systems

Leadership & Involvement

International Student Advisory Committee Member – ELTE

International Student Ambassador – ELTE

HÖOK Mentor

Senior Student Mentor

Certifications

Kali Linux; Python by Google; Network Security; Encryption; Basics of Firewall; Cyber Forensics; Learning PowerShell
